

Underground Locating Rental Equipment

Quantum Imager

*Triple-Frequency Radar Detection
Designed to Deliver More!*

Discover the Power of Triple-Frequency!

Single Freq.	Dual Freq.	Triple Freq.
Typical Depths: 10' (3m)	15' (5m)	30' (10m)

The Quantum Imager offers drastically more depth as well as higher resolution than any other imaging technology on the market.

This is due to the higher bandwidth of a triple-frequency system.

A triple-frequency system captures middle frequencies ideal for utility locating that lower bandwidth, dual-frequencies often miss.

Magnetic Locators

Schonstedt Magie Locator
Schonstedt GA-52CX
Schonstedt XTPC+
Schonstedt TX5 Transmitter
Subsurface Instruments ML-1M Locator

Utility Locators

Spar 300 Utility Mapping System
SubSurface Instruments PL-2000

Sonar/Radar Systems

U.S. Radar Quantum GPR Imager
Seafloor Systems Sonarmite Echosounder
